

3 **NEW** Super Intelligent Fence Energisers

MB500R	Powers up to 45km
MB1000R	Powers up to 90km
MB1500R	Powers up to 130km

Super advanced Mains or Battery powered fence energisers, with remote control capability.

Optional remote control and strobe light.

You can turn system on or off from the paddock and a flashing light will activate if fence voltage drops.

Performance and Features that are world class.

- **Digital display** of output voltage, earth condition, stored joules and amps - condition of fence.
- **Mains or Battery powered** 12 volt lead and A.C adaptor supplied
- **Remote Ready** turns unit on or off, from the paddock
- **3 powers levels** to select from, up to 9,200 volts
- **Earth monitor** displays the condition of your earth system
- **13 pulse speeds** to select from 1.2 to 2.4 seconds
- **Built in Alarm** activates internal buzzer when fence voltage drops. Alarm voltage can be set from 2 to 6 kV
- **Tough enclosure** - gasket sealed ABS robust enclosure
- **Auto battery save function**, when battery voltage level drops, system changes output level to low and pulse rate to maximum.

MB500R - 4.9 Joules stored, 3.9 joules into 250 ohms
 MB1000R - 9.8 Joules stored, 7 joules into 250 ohms
 MB1500R - 14.3 Joules stored, 11 joules into 250 ohms

A Quality Australian Made Product, from Australia's largest electric fence manufacturer.
