

THUNDERBIRD

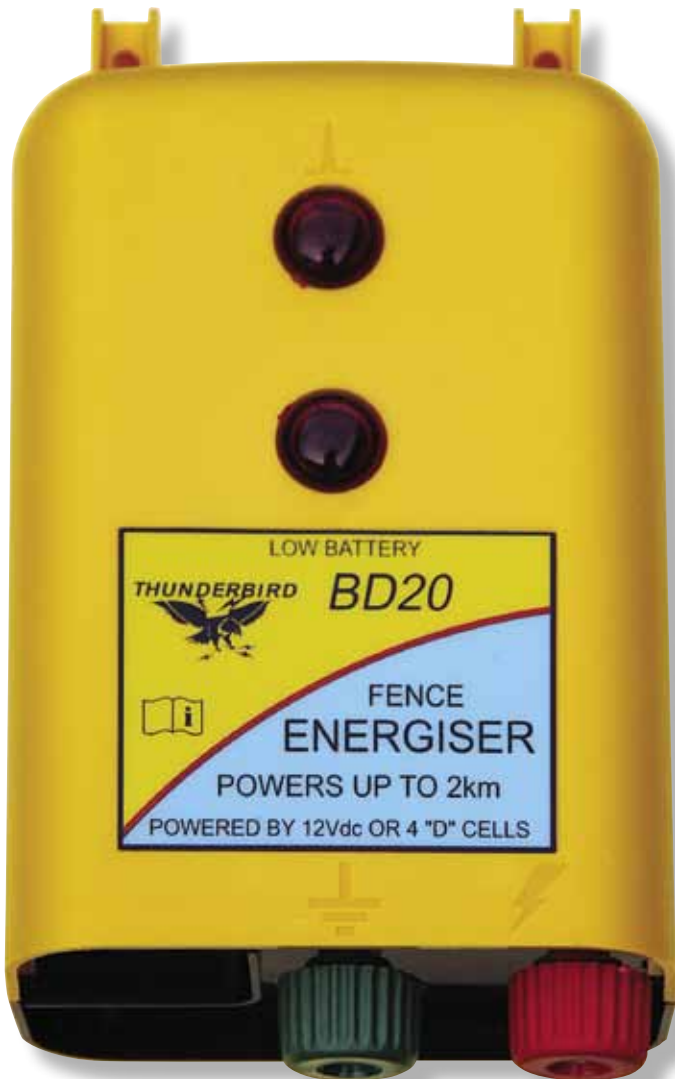

Electric Fence Systems

NEW PRODUCT RELEASE

Thunderbird's new super versatile BD20 strip grazer energiser

Operates from a 12 volt external battery or 4 x D cell torch batteries for optimum portability.

A mains A.C. power adaptor or a solar system are available as options.

Now that's flexibility !

Thunderbird's new BD20 Strip Graze fence energiser has been designed for maximum versatility and reliability in mind. With sealed protected electronics, indicator lights, 4 different power supply options, and many more features it's made to last in the harshest environments.

With 2 years warranty and 6 months lightning warranty, super low battery consumption and portability places the BD12 ahead in it's class.

Light indicators - a pulse light indicates the energiser is operating correctly, while the bottom light lets you know when your battery needs re-charging or replacing.

Solkits available - your THUNDERBIRD dealer can fix you up with an optional solar kit to recharge your battery, or even supply a mains A.C. adaptor to operate from mains power.
